# Dubbing

## Creating Language Versions of Visual Media

In today's age of multi-channel global television, viewers have access to a host of international and regional language television shows and movies. Dubbing allows them to enjoy this content, while allowing them to focus on the visuals, not subtitles. For broadcasters, finding the best possible Dubbing partner is crucial, as low-quality Dubbing risks destroying the original intent of the creator, putting viewers off completely.

## The PFT Advantage

Prime Focus Technologies (PFT) enables content owners to convert original language content to multiple languages with the assistance of digital workflows via CLEAR™ — our flagship Media ERP Suite. We pay special attention to the nuances of diction, accent, voice modulation, and expression in each Dubbing project we undertake. Here's what we offer:

- Proven expertise, with over 2 decades of dubbing experience
- Dubbing capabilities in over 60 languages
- We trans-create, adapt, audition, cast, supervise, record, mix and master content for films, ads, serials, documentaries, animation, gaming, and e-learning content
- Largest talent pool of scriptwriters and dubbing directors in India
- State-of-the-art in-house recording studios in New York, Mumbai, Delhi, Kolkata, and Chennai
