CLEAR™ MEDIA ERP

ONE Software for the Enterprise
Prime Focus Technologies’ flagship product, CLEAR is the world’s first, proven Hybrid Cloud-enabled Media ERP Suite that automates the content supply chain. CLEAR helps Media & Entertainment (M&E) companies drive creative enablement, enhance efficiencies, realize new monetization opportunities and reduce Total Cost of Operations (TCOP) like no other. With CLEAR, you get ONE Software for the enterprise that works across all departments and global sites, enabling you to manage end-to-end content operations from creation to delivery on a single software. With Work Order Management embedded in MAM, and transformational AI-led Micro Services, CLEAR as a Media ERP software offers much more than any other MAM system.
CLEAR MEDIA ERP

A Bird’s Eye View

- Offered as SaaS
- Hybrid Cloud architecture
- Multi-tenant, Cross-tenanted platform
- Interoperable, API

- Pre-integrated with 80+ industry standard applications
- Mobility enabled – iOS, Android
- AI/ML integrated
- Holistic approach to Security

Azure’s scale, reach and unparalleled AI capabilities help implement CLEAR Media ERP across geographies with extreme reliability, scalability, performance and global accessibility. Leveraging Microsoft Azure’s best-in-class Cloud services, CLEAR gives you superior best-in-class advantages of security, privacy, transparency and scalability. Integration with Azure empowers YOU with the freedom to choose from multiple compute and storage options to scale infrastructure with very minimal capex investment.

**THE CLEAR ADVANTAGE**

- **Hybrid Cloud Architecture** – Gives content owners the peace of mind that their content is secure with them while the applications run on the Cloud
- **Business Process Management (BPM)** – Specifically tailored for content operations
- **Pre-integrated with industry standard applications** – Transcode, Archive, QC, File Acceleration and many more
- **Work Order Management** – Enables users to manage assets, resources & tasks on ONE system
- **Watertight Security** – Integration with OKTA, secure streams, instream/forensic watermarking, content-based access, secure desktop player and more
- **Disaster Recovery (DR)** – Always on, site-to-site application DR with support for content and application for business continuity
- **Support for Interoperable Master Format (IMF)** – World’s first IMF media player for playback over streaming proxies, ability to create deliverables for different platforms (Netflix, iTunes etc.) and specifications (like DPP) from an IMF package
- **Artificial Intelligence (AI) support** – Integration with AI providers like GrayMeta/Azure/Google for Optical Character Recognition (OCR), Speech-to-text etc.
WHY WE WIN
